Capability Statement

Company Overview

Adams Cloud & Cybersecurity LLC delivers cybersecurity advisory services from San Diego, California, with a focus on NIST 800-171 and CMMC readiness, Risk Management Framework authorization support, AWS cloud security, and HIPAA Security Rule risk analysis. The firm serves public-sector agencies, K-12 districts, community colleges, healthcare practices, and small-to-mid-size businesses. All assessments are performed and authored directly by a CISSP- and CCSP-credentialed principal with 15+ years of Department of Defense and commercial cybersecurity experience.

Product / Service

- NIST SP 800-171 / CMMC Level 1 and Level 2 readiness assessment
- HIPAA Security Rule risk analysis and remediation roadmaps
- Risk Management Framework (RMF) authorization support: SSP, SAR, and POA&M authorship and sustainment
- Vulnerability management: Tenable Nessus, ACAS, SCAP, WIZ, CeDAR
- AWS cloud security posture review: IAM design, least-privilege enforcement, conditional access
- Zero Trust architecture review aligned to NIST SP 800-207
- Security policy authorship: Acceptable Use, Incident Response, Business Continuity, Access Control

Identifiers and Credentials

UEI: LKEZE1QZGLG3	UNSPSC: 81111811, 81111800, 81111801, 43233200, 80101507
CAGE Code: 1ZPT9	NAICS: 541512 (primary), 541519, 541611, 541690, 518210
Business Certifications: California Small Business (Exp 4/30/2028) DVBE (Exp 4/30/2028) SDVOSB (SBA VetCert, certified 5/28/2026, exp 5/28/2029)	Professional Licenses: CISSP · CCSP Security+ · Linux Essentials
Veteran Status: 100% Service-Disabled Veteran (VA-rated)	

Professional Experience

- 15+ years of Department of Defense and commercial cybersecurity experience leading information system security and Risk Management Framework programs
- RMF Step 4 (Assess Security Controls) and Step 5 (Authorize Information System) ownership across federal cybersecurity engagements
- Account-request and Privileged Access Agreement review supporting Navy mission systems
- Direct experience managing hardware and software procurement and vendor negotiation for federal government contracts
- Authorship of Security Assessment Plans, Security Assessment Reports, System Security Plans, and POA&M artifacts
- Vulnerability management using Tenable Nessus, ACAS, SCAP, WIZ, and CeDAR
- HIPAA-aware AWS production deployment; Navy Qualified Validator coordination to accelerate Authority to Operate decisions

Differentiators

- Single-principal delivery: senior practitioner scopes and executes the engagement. No consultant handoff, no offshore handoff.
- Filed cyber posture (SPRS UID SB00151243, score 105 of 110): NIST SP 800-171 self-assessment of record. Most small advisory firms recommend the controls without holding the score themselves.
- Multi-channel small-business eligibility on one SAM.gov registration: SDVOSB (SBA VetCert certified 2026-05-28), California State Small Business, California DVBE active to 2028-04-30.
